

**August 4, 2023**

**Nevada Medicaid Web Announcement 3140**

**Attention Provider Type 19 (Nursing Facility):**

**Submission of Nursing Facility Tracking Requests for DISCHARGES**

The nursing facility is required to submit a Nursing Facility Tracking request via the Pre-Admission Screening Resident Review (PASRR) web portal for all discharges from the facility. Failure to immediately report a discharge on the PASRR web portal may prevent the recipient from receiving additional necessary services and/or prevent other providers from receiving payment.

**Reminder:** The facility must submit the Nursing Facility Tracking Form upon each of the following occurrences for Medicaid-eligible individuals:

- Any admission;
- Service level update and/or change;
- New or retro-eligibility determinations;
- Medicaid Managed Care disenrollment;
- Hospice enrollment or disenrollment; or
- Discharge or death

For additional information and instructions on completing the Tracking Form, see the following link for the "PASRR, Level of Care (LOC) and Nursing Facility Provider Training" presentation:
