Provider Type 11 Claims Are Adjudicating Using “Lesser Than Logic” Methodology

The Medicaid Management Information System (MMIS) has been modified to adjudicate utilizing a “lesser than logic” prior authorization methodology for provider type 11 (Hospital, Inpatient) claims.

Effective with claims received at Magellan Medicaid Administration, Inc. on or after Jan. 11, 2011, please discontinue sending cover letters requesting special batch processing for these claims. These new instructions apply to paper claim forms and electronic transactions.
