Announcement 651

Attention Provider Types 12, 17, 20, 24, 74 and 77: Use Code Q0090 to Bill for Skyla® through 2013

Effective with dates of service on or after July 1, 2013, a new code, Q0090, can be used to bill for Skyla® (levonorgestrel-releasing intrauterine system) 13.5 mg. The rate is \$663.33 for provider types 12, 17, 20, 24, 74 and 77. Code Q0090 will be available through December 31, 2013. After that date, the "Q" code will be replaced with a permanent HCPCS "J" code. A future web announcement will notify providers of the appropriate HCPCS "J" code to use.
