Announcement 671

## **Durable Medical Equipment Manufacturer's Invoice Requirements**

**Attention Provider Type 33 and Other Providers Who Bill DME and Supplies:** Please review the following policy refresher on the required component of providing a manufacturer's invoice.

**Policy:** Manufacturer's Invoice for certain items, especially where a Nevada Medicaid rate has not been established, is required to be submitted with the prior authorization (PA) request per Medicaid Services Manual (MSM) Chapter 1300 Appendix B, INTRODUCTION AND GENERAL INFORMATION, FORMS AND DOCUMENTATION REQUIREMENTS.

Invoices that are submitted with a PA request and that are altered or tampered with in any way will be denied as they are not valid.

Note: An order form with prices can be supplied when an invoice is not available.

Please refer to [MSM Chapter 1300 Durable Medical Equipment](#) for more information on what to provide with PA requests.
